SOME OF OUR VALUABLE "SUBS"

SENIORS

CLASS MOTTO:

If you love something, set it free
If it comes back to you, it's yours
If it doesn't it never was.

CLASS FLOWER

Rose

CLASS COLORS:

Red and White

Sometimes one sets things free, like it or not, as in the general bent of the books' theme . . . Letting Go and Going Forward . . . and the motto of the Class of 1980.

Grasp time tight? Hold onto the wind? Even the most expensive bottled fragrance will dissipate in the container.

. . . play hard in the game, scream at the win, mourn at the loss,
. . . study well for the test, rejoice in the knowledge, grow with the mistakes,
. . . make friends, do kindness, disagree,
. . . smell the happiness, the sadness, the perfumes.

They'll be gone but they'll be back and they're yours. You'll have all these, "like it or not." As we let go of our seniors and they go forward we'll remember them as a sweet and tangy perfume that enhanced our lives.

ADVISORS:

Patricia Aikey, and Louis Chervenak

When the 1980 Polaris staff got together for the first time, it was to consider a theme for this yearbook. We came up with lots of ideas and had a tough time deciding on just one. We debated on the use of "Conservation" as a theme, also "Fast Food", "Letting Go", and even "Getting Hold". We combined several of these ideas and came up with one that we thought would rather grab your attention and would clearly show you our position — "Letting Go and Going Forward". As you, the senior class, step into your roles as adults, you are not the only people starting a new phase of living. With the arrival of the new decade and its unfamiliar shortages, many people, not just high school seniors, are stepping back to get a better perspective. The 70's have come to a close, but the 80's are just starting to open up and along with the 80's comes revision. At times it seems hard to record the world events because they seem to go by so quickly. We are forced to examine our lives daily in order to keep up with these changes. Striking out on your own, you may find the future is really today. You have to take chances. You have to move now! Granted, the results may not always be what you expect, but all of your life is filled with unknowns, whether it be as simple as finding out what is behind a closed door, or as far reaching as wondering where you'll be in 20 years. Consider your options after graduation. Some of you will go straight into the job market; some will get married; some will join the service; and some will go to college. As much as you rejoice in it and fear it, you'll be on your own. You may continue to learn new things all your lives, but now you will be sharing these lessons with different people.

As we, the graduating class of 1980, stop to consider what has happened over the years, our good times seem better and our bad times don't seem half as bad. Time has a way of altering the way we see things, I guess. Looking back, particularly on our senior year, we notice the loss of many prominent people due to one circumstance or another: actor John Wayne; ex-vaudevillian, comedian — Jimmy Durante, and labor leader — George Meany, to name only a few.

As we continue our little trip into the past, we can see that the year has been crammed with conflicts. We watched as the dollar sank in value, and as the price of gasoline soared. (Much to our distress.) President Carter, through the use of diplomacy, helped the countries of Egypt and Israel to come to a mutual agreement. He also suggested the reinstatement of the draft. Russia invaded Afghanistan, seriously jeopardizing the world's participation in the Summer Olympics in Moscow. We are starting to see more conflicts in our own lives too. As we leave our classes for the last time, clean out our lockers, and take that last walk down through the auditorium, and up onto the stage, part of us will be wishing that we could go back to the old way of doing things, and another part will be wishing — no needing — to let go of the past and hurry into the new world. We have more responsibilities now and we must stand up to them the best we can.

With these thoughts in mind, the Polaris staff would like to wish the graduating class of 1980, the best of luck. Always remember: "The future is yours. You can make of it anything you want."

"Letting Go and Going Forward" is a most appropriate theme for the class of 1980. There will be those who find it difficult to let go of the past and look to the future. To others, looking ahead is a zesty challenge. The old is in many ways outdated and inferior because not letting go could mean no gains, losing momentum and forfeiting progress.

Some who want to hold on to the past really want to go forward as much as anyone but standing in an insecure present, fear that letting go for something new may be even more shaky.

As you move forward, do so on a solid base. The education that you have received provided you with materials and an opportunity to build a firm foundation for each day. Have you, the graduates of North Star High School, Class of 1980, built that solid base?

And the award for the group who displayed the most ways to sit, goes to . . .

I'll trade you 3 "Silent Nights" for one "Hallelujah Chorus."

I know Mr. Croft said the way we'd march on to the field this year was unusual.

There's nobody out there with a ca . . . mera!

Now kiss my other foot, then *maybe* you can use my flag.

"Dear Aunt, How are you? I am fine . . ."

THANKS Mel and Gloria for doing extra "time".

THANKS Mr. Felix for handling yearbook subscriptions.

"Moo-goo-gye WHAT???"

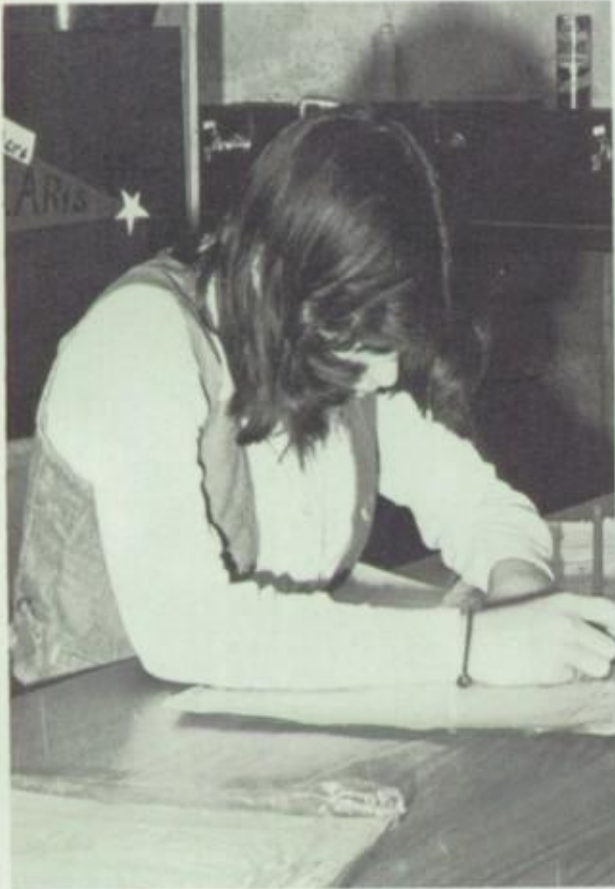

"Missy, I don't think you're getting any 'nearer'."

"Oh no, he's turning into a giant green 'M&M'!"
